

Bayer Technology Services Asset Management Workshop May 18, 2010

The Bayer Technology Services approach to Asset Life Cycle Management covers the entire life span of the manufacturing plant. Implementing a plan to effectively manage your assets will achieve long-term sustainable performance in your facility.

This workshop will focus on new developments in technology and software solutions for:

- Asset Life Cycle Management
- Risk-Based Inspection (RBI)
- Mechanical Integrity
- Corrosion Management

Registration: FREE Registration online at www.btsamericas.com/EventListing.aspx
